Application No. 10/764,339

Continuation of Substance of Interview including description of the general nature of what was discussed: The Examiner and the Applicant's representative discussed several issues with the amendment filed on 12/19/08. First is the failure of claims 63, 64 and 112 to further limit the claims from which they depend, it was agreed that an Examiner's amendment changing the dependency of claims 63 and 64 to depend on claim 59 would be made, and claim 112 would be cancelled. Next it was brought to the representative attention that claim 106, which is now in independent form, did not contain subject matter that was indicated as allowable in previous office action, see paragraph 10 of the action mailed on 9/29/08. It was agreed that an Examiner's amendment would be made adding the subject matter of claim 108 to claim 106. Next an antecedent basis issue with the limitation "the first faceprint" in line 30 of claim 75 was discussed and it was agreed that an Examiner's amendment would be made changing the limitation to state "a first faceprint". Finally, a potential 101 rejection of the claim 117 and 121 with regards to the "machine or transformation test" for process claims was discussed. It was agreed that an Examiner's amendment would be made to include the limitation "using a processor to perform the steps:" between lines 3 and 4 of both claims. As a result of the Examiner's amendments made the application is now in condition for allowance.
